## ***TOILET TRAINING***

Dear Parents,

We welcome your child to our three-year-old program. Our staff will make this upcoming year a fun learning experience for your child. You will see remarkable growth in your child during this year and we look forward to being part of that process.

If your child is already toilet trained, you need not read any further.

### For the untrained child:

Many parents toilet train their children over the summer, so there is still plenty of time for your child to grow into this skill. However, if your child is showing no signs of training by CEC's Find Your Room Day at the beginning of September, please talk to your child's teacher to set up a conference time to discuss how we will proceed in the classroom and how we can work together to assist your child and you. With similar programs at home and at school, it is so much easier on the child and the success rate increases. We ask parents of children in diapers to please dress your child in clothing that accommodates toileting, such as two-piece outfits without belts or shoulder straps or dresses help a great deal.

Our desire is to help each child reach his/her fullest potential in all areas and this includes independent toileting. Our program is proactive, gentle yet firm, and consistent. We believe each child is an individual, and we will look for developmental readiness skills before we proceed with our toilet-training plan.

If you would like to speak to us before the summer begins, please stop by the CEC office or call Michelle at 281-579-9232.

Sincerely,

*Michelle Monroe*
